2117 Tobacco Road,
Augusta, Georgia 30906
Phone 706-798-2200

“Let us not become weary
in doing good, for at the
proper time we will reap a
harvest if we do
not give up.”

Galatians 6:9, NIV

Dear Ladies: My family and I cannot thank you enough for preparing and serving the food after Don's service! Words just aren't enough to tell you how

sincerely grateful we are for your kindness. It was a true blessing to be able to come back after the service and have time to fellowship with friends, family and food. Thank you for your servant's heart! Kay and Family

Thank you to the entire Gracewood family for their support. prayers and service to my entire family during dad's illness and through to his homecoming service! It has been a real testimony to my extended family and we thank you from the bottom of our hearts. God bless you and yours!

Stroke is the fourth leading cause of death in the United States, and this catastrophic event can strike without warning. In fact, four out of five people who have had a stroke showed no apparent warning signs prior to their attack. But, strokes can be stopped in their tracks. On Tuesday, October 25, 2011 at Gracewood United Methodist Church there will be a “Life Line Screening” preventive health event to scan for the risk of stroke and other vascular conditions.

For a discount, please sign-up on the sheet in the narthex!

Identifying Your Risk = Disease Prevention

Life Line Screening will perform screenings for:

- 1) carotid artery blockage (stroke)**
- 2) atrial fibrillation**
- 3) abdominal aortic aneurysm**
- 4) peripheral arterial disease**
- 5) osteoporosis (bone loss)**

These screenings are recommended for anyone 50 and older, or 40 and over with cardiovascular risk factors. They are non-invasive, painless, and take 60-90 minutes to complete. The results, which are mailed directly to you, will help you and

your doctor protect your health.
